## MESSAGE

The basic aim of Faith Formation is to hand down our Faith and Traditions, which the Church received through the revelation, to the posterity and thus help them to live as active members of the Church. This being the aim in mind, the Catechetical Commission Synodal Commission for Catechesis published catechetical text book series of Syro - Malabar Church, for use by the students of standard 1 to 12, titled "On the Path of Salvation'. Besides that, the Synod of Bishops of the Syro - Malabar Church decided to publish a text book to help the faith formation of the children of Kindergarten. It gives me great happiness that a text book with the title 'Jesus' Kids' has been published, under the supervision and guidance of the Catechetical Commission, exclusively for the sake of young ones who are seeking faith formation in nursery classes.

This text book has been prepared and presented with themes that are very attractive to the children with modern teaching techniques. This book is a true help and guide to the children who are eager to know and love Jesus and wish to grow in the life of faith to the parents training them and to the teachers involved in the faith formation.

I congratulate the Syro - Malabar Synodal Commission for Catechesis which has put in a lot of effort and also all those who have extended a helping hand in bringing out this text book. I pray and wish that this book may help all the children to grow up like Jesus, in the Holy family, who grew in wisdom and stature in divine and human favour.

## PREFACE

In the Old Testament and in the book of Proverbs thus we read: “Train children in the right way, and when old, they will not stray”. (Pro: 22:6). The Catechism of the Catholic Church also teaches that the children should be initiated at an early age into the mysteries of the faith and associated from their most - tenderest years with the life of the Church. (CCC 2225)

This book titled “Jesus' Kids” has been prepared as per the decision of the Synod of the Syro- Malabar Church which felt the need of a book for the kids to help them to come to know our Lord Jesus Christ and also to learn the prayers even before they begin their education authentically. This is a small text book which will help the kids to know the faith deeply, to accept it firmly and to live a steadfast life according to the faith they have received. This Book is presented in the form of pictures which are very attractive, enjoyable and easy to understand. Classroom activities which will ensure the active participation of all the children are added with all the lessons. The animation DVD that contains all the lessons audio visually recorded, and which is made available with the text book helps the children to register in their tender minds whatever they have learnt through the classes. Since Actions songs too have been presented in the DVD, the children can master them easily.

I congratulate Fr. Jimmy Poochakkatt, Secretary of the Synodal Commission for Catechesis and all our staff members at the Catechetical centre Mount St Thomas, in a special manner, for having given the leadership for the publication of this text book. I also gratefully remember the Eparchy of Ramanadhapuram for taking up the great initiative of this project.

I submit this text book, which is published with an aim of helping the faith formation of the children who are of the age just prior to the commencement of learning from the text books published for the students of the classes one to twelve, for the use of all the children of tender ages and all those who are involved in the faith formation of the kids.
