

Lesson 4: God created everything for us

Objective:

- Children will understand that why God have created everything for us.

Introduction :

- start with sign of the cross.

Lesson plan

Tell a story

Mary 's mother was very loving. She gave her everything, took her everywhere, sang songs for her, told her stories- Mary tells everybody about her mother- she cannot stay away from her mother – her mother as well- they lived happily.

'Even if a mother who loves so much forgets her child, I will not forget you' concept can be explained to children through this story.

- 2) Have a discussion with children on how there is parental influence in day-to-day life. These are the people who fulfill the needs of the children. A child is always dependent on others from morning to evening. But God loves me more than my parents. God gives me everything I need. Since God has created everything for me, I should love God. We should thank God.

3)The objective of this lesson is to create in the children the awareness that God is the creator of everything by looking at the beautiful universe. To make children understand that God is the only person capable of creating everything.

Bible verse : Isaiah 49:15

Action song

God created everything for us

Activities :

- 1)Group writing

Make the children sit in a group and write down names of things God has created for them, such as sun, moon, flowers, fruits, animals, stars, seas, sky, water, etc. If they write something different, motivate them

2) Draw 5 things that God has created for you.

Conclusion :

Review the main points of the lesson and ask students to summarize what they've learned about god created everything for us

- End with a closing prayer, thanking God for Everything
